### Done

## Updated Board

The screenshot displays a Kanban board for "Purple Squirrel Software". The board is organized into five columns: "Product Backlog (Upcoming Sprints)", "To Do (Next Sprint Backlog)", "To Do (Current Sprint Backlog)", "In progress", and "Testing". Each column contains cards representing tasks, with progress bars and status indicators.

**Product Backlog (Upcoming Sprints):**

- Performance management config [8 points] (1 attachment, 0/9 completed)
- Timesheet export [3 points] (0/9 completed)

**To Do (Next Sprint Backlog):**

- Timesheet input page [13 points] (1 attachment, 0/9 completed)
- Timesheet Config/Admin page [8 points] (0/9 completed)
- Timesheet reminders (calendar) [5 points] (0/9 completed)

**To Do (Current Sprint Backlog):**

- "All" selection results are out of alignment for some users
- Performance management config [5 points] (1 attachment, 0/9 completed)

**In progress:**

- Download your selected payslips
- Download payslips [5 points] (1 attachment, 0/9 completed)
- Payslip (Download my last payslip from October 2018)

**Testing:**

- Select payslips in Archive (1 attachment, 0/9 completed)
- Payslip page [8 points] (1 attachment, 0/9 completed)
- Payslip archive [5 points]

### **Summary of change**

- Move performance mgt. ticket back to product backlog
- Breakdown performance management ticket into smaller tasks and estimated 5 and 8 story points
- Move performance management ticket estimated 5 points to the To-do list in the current sprint
- Performance mgt. ticket with 8 story point remains in the product backlog
- Create a new list named 'To-do next sprint'
- Estimate all timesheet tickets
- Move 30 story points timesheet tickets to next sprint to accommodate our velocity and to affirm to the sales team that we would be working on their request in the next sprint
